

THE UNIT.

COMPANY

| IT4IT®

IT4IT®

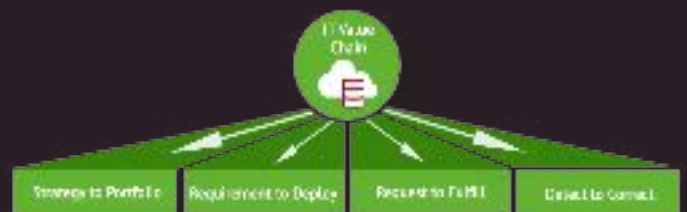

The IT4IT® reference architecture focusses on data, information, features and tools that are necessary for the implementation of IT Service Management. IT4IT® is an independent framework that integrates seamlessly with ITIL, Agile, DevOps, Cobit and Iso2000, and which enables organisations to make complex chains and data exchange between you and your partners possible by using best practice architecture.

WHAT IS IT?

IT4IT Training creates a competitive advantage for you and ultimately a higher profitability. This three-day classroom-based training offers tools for sourcing, designs and service management in a framework that is based on the value chain. The data-driven IT4IT creates opportunities for the improvement of agile methods and increasing the IT focus on business results. You can complete the training with a certificate and directly apply your gained knowledge to your desired goal.

WHAT DOES IT SOLVE?

- Deep insight into IT environment performances
- An unequivocal approach based on the value chain
- Create better opportunities for reducing risks and improving cost management and quality
- The effective management of complex IT ecosystems such as Cloud, multi-sourcing, XaaS, etc.
- Automation of BAU IT capabilities to increase speed of innovation
- Align your IT service catalogue with business requirements

ABOUT THE UNIT COMPANY

The Unit Company is an accredited education institute with a focus on digital transformation, architecture and business innovation. We work for a number of universities, governments and companies, both nationally and internationally. Our courses are aimed at managers, consultants, specialists (SME), project leaders, and architects.

We provide class training experiences as well as in-company training. The courses are taught by our consultants, providing many practical examples and applicable knowledge. With their experiences gained directly from the workplace, they have become experts in their field. The Unit Company delivers TOGAF® and Archimate® classroom courses, which are accredited by The Open Group. In addition, The United Company's courses are registered at the CRKBO (the Dutch Central Register for Short Vocational Training).

INCOMPANY TRAINING

Apart from monthly classroom training, a training program customised to your company is also possible. An in-company training can be fully tailored to the needs of the client. Such customisable examples include: format, location, time and date, and duration. It is also possible to bring in your own examples.
